

# A Matter of Health

There is a quality in Royal Baking Powder which makes the food more digestible and wholesome. This peculiarity of Royal has been noted by physicians, and they accordingly endorse and recommend it.

ROYAL BAKING POWDER CO., NEW YORK.

A corn-growing contest has been started in Newton county, Georgia, the participants being the public school children of that county. Each contestant is required to fulfill several conditions, i. e., that he is a school boy of that county, will do all the work himself, etc. Each one is permitted to select any amount of land in that county. The object is to interest the coming generation in this sort of work and to produce by breeding a type of corn better suited to Georgia conditions.

Roger Wood Drury, of 352 West Jefferson street, Louisville, six years old, fell while attempting to slide down the banister and was fatally hurt.

## Method to Assess National Bank Franchises.

The State Board of Valuation and Assessment decided that it would fix the franchise value of all national banks in Kentucky by deducting the value of the real estate owned by each bank from the total capital stock surplus and undivided profits held by each bank, the balance will be the franchise value of each bank.

"On a farm of moderate size, where the conveniences for housing and protecting poultry are few, a flock of eighty or a hundred hens add two or three dollars regularly every week to the cash resources, besides furnishing a very important item of the family diet. This is help not to be despised."

Bad blood and indigestion are deadly enemies to good health. Burdock Blood Bitters destroys them.

# The Luxury of Living.

You will never know until you have an abundant supply of water in your home. When you consider that we do the pumping all the year round, and that your water supply is always under pressure, there is

## Nothing So Cheap

In all your living expenses as the water supply from our mains. You may have water for sprinkling the street and lawn, a faucet in the kitchen, another in your stable, and the charge is

## Only \$12 Per Year

FOR 30,000 GALLONS. With the bath-room connected the cost is \$16 and the allowance 40,000 gallons. The first cost of installing the water is about the same as building a new cistern. Come in and talk about it anyhow, or see your plumber.

**Get the Habit.**  
We are truly creatures of habit. In fact, about everything we do, or don't do, is from force of habit. A barbed wire fence may separate the premises of two farmers who began business under similar conditions. One formed the habit of doing things well and keeping everything about the farm and home tidy and clean with every indication of thrift and prosperity. His buildings may not be expensive, but are located and arranged so that they have the appearance of being both comfortable and handy. They are painted and kept in repair. The fences are in perfect harmony with the buildings. The lawn is kept in good trim by the frequent use of a mower. Trees are planted about the buildings in such a manner that they give protection and add to the home-like appearance of things in general. It takes no great effort on his part to do things right or in season, and to keep the farmstead looking as attractive as a city home, because he has got into the habit of doing everything well.

The fellow who lives on the other side of the fence has established the reputation of never doing anything to-day that can be done to-morrow, which accounts for the many evidences of neglect and shiftlessness that are to be seen in every department of his farming operations. These habits are fixed early in life and frequently are the result of following in the footsteps of the father or doing things as he did them.

The force of habit is much stronger in the world than we are willing to acknowledge. There are many fathers and mothers who are thoughtlessly influencing their children in various directions by their questionable habits of living and doing things which, in time, they will criticize but find difficult to correct because they have become fixed habits with the children.

The boys and girls who have the opportunity of a course of training at some state farm or industrial school, can, under proper instructions, overcome the habits of early life, but, like the educated Indians, are quite apt to return to the ways of their fathers—N. W. Agriculturist.

## Nearly 300,000 Rural Mail Routes in Active Operation.

On April 1 the Post office Department had in operation in the United States 29,996 rural free delivery routes. In addition, there were pending 4,521 petitions for the establishment of routes. In the Central West and Southwestern States the routes are as follows: Arkansas, 151, with 83 petitions pending; Illinois, 2,450, with 119 petitions pending; Indiana, 1,894, with 125 petitions pending; Indian Territory, 9, with 8 petitions pending; Kansas, 1,367, with 121 petitions pending; Kentucky, 500, with 138 petitions pending; Missouri, 1,544, with 176 petitions pending; Oklahoma, 452, with 107 petitions pending; Tennessee, 1,231, with 411 petitions pending; Texas, 1,182, with 321 petitions pending. Of the 4,521 cases pending, 1,016 have been assigned for either April 15 or May 1, leaving 3,505 unacted upon April 1 and more than 30,000 routes in operation after April 15.

## New Bridges Proposed.

The Lee County Fiscal Court appropriated \$45,000, subject to ratification for the purpose of bridging north, middle and south forks of the Kentucky river, thus to unite in a community of interests the three sections of the county and afford access to Beattyville, the thriving county seat. The proposition is shortly to be submitted to a vote of the people.

# SYMPTOMS THAT INVITE GERMS

Little Ailments That Should Be Looked After if One Wants to Keep Well.

Anyone who has any of the many symptoms caused by poor digestion should take special care to avoid conditions where disease germs are likely to be present. Any of the following symptoms are good evidence of stomach troubles.

Acedity  
Spitting up of food  
Colic  
Heaviness at stomach  
Bleediments in urine  
Night sweats  
Headache  
Loss of flesh  
Heartburn  
Nausea

Gripes  
Coated tongue  
Sour taste in the mouth  
Diarrhoea  
Nervousness  
Sick headache  
Vertigo or dizziness  
Drowsiness

These little ailments, which indicate a weak stomach and imperfect digestion, should be looked after by the use of Mi-o-na, if one wants to keep well. A tablet of this remarkable remedy, taken before each meal, will so strengthen the stomach and digestive organs that natural weight will be restored and perfect health and strength regained.

Ask W. S. Lloyd to show you the Mi-o-na guarantee. [A26M10.]

## Meowing of a Black Cat in the Organ Pipes Brought up the Choir Rehearsal.

A black cat created consternation among the members of the choir at the High Street Methodist Church at Lexington. The choir had met to practice, and when Miss Florence Elliott, the organist, pressed the keys an unusual sound issued from the big instrument that caused the singers to pause for a new start. Directly the meowing of a cat was heard, and at this the members of the choir began to scatter and the choir practice was over.

Investigation disclosed the fact that a large black cat was confined in the instrument. How it got there is a mystery. It is generally believed that the cat wandered down through the cellar and probably in following the trail of a rat entered the organ through the motor valve. It could not find its way out.

The organ refused to play and a machinist was required to fix it and liberate the cat.

## His Brains Were Extracted and Given to President Roosevelt, Imagines the Memphis Lunatic.

"They took my brains out and gave them to President Roosevelt when he was in Memphis, and I am accused of assassinating President McKinley," was the statement made by Stephen Astor when arraigned in Justice Young's Court on a breach of the peace charge.

Astor went to the residence of Mrs. Dollie Hughes and demanded something to eat. When refused he dashed at her with a knife. Neighbors went to her rescue and overpowered the man, who was jailed.

The prisoner claims to be from Memphis, Tenn., and is a raving maniac. Mrs. Hughes, who is the wife of a prominent farmer, saved her life by locking herself in a room. Astor says that while in a Tennessee asylum his brains were extracted and never put back.

## Winchester Shouldered by the Judge, Who Then Placed His Son Under Arrest For Sabbath-Breaking.

Unique in the history of arrests in Knott County is that of County Judge Thomas Baker, who placed in jail his son Roy on the charge of breaking the Sabbath.

Young Baker, who is aged 23, becoming intoxicated, resisted the arrest of city authorities. He fortified himself in his residence and defied them.

Fearing that he would kill some of the officers, the warrant was placed in the hands of his father, who, being an officer of the law, shouldered a Winchester rifle and demanded his son to surrender. The son, realizing that if he fired on his father he would murder him, surrendered and was locked up on the charge of disorderly conduct.

## Kisses Cheap and Dear.

The Philadelphia Press wants to know if a woman's kiss is worth \$50,000. Nay, verily, if she lives in the Quaker city, but if you are talking of a Kentucky woman, that's a different matter. There are women in the Blue Grass State that it would be cheap to kiss at \$100,000 per.—Frankfort Journal.
